

There is much too much violent and graphic programing on Network TV before nine P.M. The arguement that violent T. V. does not effect young minds is bogus. A long time ago when I was a kid the movie Robin Hood effected us kids that we did many vandalous acts just acting out that one film. The entertainment industry should be held responsible to our young people by not putting these ideas in their heads. It's bad enough that the adults that watch this trash get the wrong ideas, for instance SOAP OPERAS & certain TALK SHOWS!
